### Editorial

We warmly welcome each and every social researchers to attend our “2nd Global Summit on Sustainable Development and Society” to be held on July 18-19, 2022 in the beautiful city Miami, USA with the theme of “Promoting the Sustainable Development Goals.” The conference provides the global coliseum to international scholars and researchers to voice their research findings to the world and also academicians, scientists, and business professionals, general public to share information and ideas about how to achieve the sustainable goals and minimize the problems of sustainable development. The summit covers all the 17 goals of sustainable development like poverty, hunger, health, sanitation, education, innovation, gender equality, climate change, etc.

Miami, which is rich in history, cultures, and science, will be a great option for participants to explore the city as well as its society. We welcome all to be a part of the Sustainable Society 2022.

Now-a-days the stage of hunger has been improving through different practices like production increase, by facilitating income generating activities, learning about climatic factors etc. The ZHC was launched by UN. The Zero Hunger vision shows five elements from and within the SDGs, which are taken together, can end hunger, eliminate all forms of malnutrition, and build inclusive and sustainable food systems. The five elements are All Food Systems are Sustainable, An End to Rural Poverty, and Adapt All Food Systems to Eliminate Loss or Waste of Food, Adapt All Food Systems to Eliminate Waste or loss of Food, An End to Malnutrition.
