

Announcement of 58th International Conference on Advancements in Nursing Research and Care

Advanced Practice Nurse is a registered nurse who has acquired the expert knowledge base, complicated decision-making skills and clinical competencies for expanded practice. The characteristics of which are formed by the context of their country in which they are credentialed to practice. They perform tasks once reserved for medical doctors. They assist different medical professionals and manage patient care, and many specialize in fields such as pediatrics, oncology, and family medicine. There are several opportunities in advanced practice nursing with the current nursing shortage and demand for qualified health professionals. APNs not only make a good living and work in a time of nursing opportunity. They also get pleasure from the daily reward of serving to patients recovering from their illness to recovery.

Conference series organises leading international conferences and webinars and is instrumental in bringing together experts and beginners for cooperative and effective research-oriented discussions. The goal of Conference series conferences is to bring together scientists at every level from different disciplines to understand and discuss during programmed topic sessions and informal gatherings. Conference series conferences will showcase innovative, cutting-edge research on the fundamental roles in addressing the challenges and translational research from academia to industry. All these opportunities will support professional growth of younger scientists that will promote future collaborations and enhance participation and contribution to their exciting research work. Exciting oral sessions and poster sessions will reflect broad diversity of research and will include topics driving innovative efforts and provides maximal opportunity for scientific exchange respectively. Besides invited speakers, many speaker slots are chosen from submitted abstracts to ensure good representation of those who are new to the field, young investigators, and recent results. Contact us and we'll connect you with the right subject expert from our vast network of experienced operation professionals worldwide.

Conference series conferences also, encourage bright minds with special awards and certifications which are categorized to best speaker talks, best abstract, best poster award, outstanding young researcher award and the house of delegate awards. Fetal and Maternal Medicine scientific committee is responsible for recommending individuals for awards for consideration and approval. Winners of the awards will be considered to have presented an original scientific or technical study investigating a novel application or an innovative research approach, of a standard suitable for publication at an international level.

We encourage you to have a look on our official website and submit your speech abstract as the earliest, so that we can reserve your slot.
